PROFILE

Front-end developer building responsive websites and web apps with React, Next.js and TypeScript. Professional experience as a graphic designer means I work comfortably from Figma, care about the details of an interface, and can design one myself when there is no designer. I designed, built and launched Akordo, a live scheduling web app for hospitality teams, in Albanian and English.

SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks	React, Next.js, React Router, Tailwind CSS
Front end	Responsive design, component-based UI, design systems, REST APIs (fetch)
Quality	Accessibility (semantic HTML, keyboard navigation, contrast), SEO (metadata, sitemaps, Open Graph)
Workflow	Git and GitHub (branches, pull requests, merge conflicts), Vite
Deployment	Vercel, Cloudflare
Design	Figma, Adobe Illustrator, Adobe Photoshop, UI/UX design
AI tools	Claude Code, Cursor: planning, debugging and refactoring, and reviewing AI-written code
Basics	Node.js, Python

PROJECTS

Akordo · Scheduling web app, own product — 2026
Next.js, React, TypeScript, Tailwind CSS, Cloudflare · akordoapp.com

- Designed, built and launched a complete product for cafés, restaurants and hotels (brand, UI, marketing site and app): weekly schedules, availability, time off, shift swaps, daily tasks and labour cost.
- Mobile-first interface for three roles (owner, manager, staff) and several venues per business, fully bilingual in Albanian and English.

Learnify · Online learning platform, personal project — 2024
React, React Router, Vite · learnify-web-phi.vercel.app

- Eight-page React app with client-side routing; 28 courses rendered from one data source, each with its own page.
- Live search across course titles and categories, with suggestions when nothing matches.

Visit Kosovo · Travel guide website, personal project — 2025
HTML, CSS, JavaScript · visit-kosovo-web.vercel.app

- No framework: cards, filters and map detail views come from one data file; filtering needs no reload and saved places persist.

Revora · Gym brand and website, personal project — 2024
HTML, CSS, JavaScript · revora-lac.vercel.app

- Designed the brand identity and built the responsive one-page site: programs, trainers, pricing, contact form and FAQ.

EXPERIENCE

Graphic Designer · Industria Communications — Jul 2025 – Jul 2026

- Designed brand identities (logos, colour and type systems) plus print, packaging and campaign work for business clients.
- Presented concepts to clients and took them through revisions to final files, on deadline.

Graphic Designer · AXE Media — Jun – Oct 2024

- Designed identity, print and social media work for several client brands, including print-ready files.

EDUCATION & COURSES

CS50's Introduction to Programming with Python · Harvard (edX) — 2026
The Complete Node.js Developer Course · Udemy — 2026
Programming with AI · Future Minds Academy — 2025
Front-end Web Development · Future Minds Academy — 2024 – 2025
High-school diploma, Graphic Design · Qendra e Kompetencës "11 Marsi" — 2021 – 2024
